4. WARRANTY

Client hereby release Practitioner/Technician, and any and all persons representing the company, for all claims, demands, damages, actions and cause of action arising out of performance of the services.

Practitioner/Technician or Company accepts liability in compliance with the legal measures and regulations in the case of negligence or carelessness or intentionally or negligently caused injuries or threat to life, body and health.

5. EXPLANATION

Client is informed in detail about specific risks of facial skin treatment using Microneedling technique.

The following risks are specifically explained to the client:

- During the treatment, despite the staff expertise and all the precautionary measures, the injury is possible.

- Despite the application of the most advanced and the top quality products, allergic reaction is possible but rare. The client is informed about this and he/she assumes liability.
- During and after the treatment temporary swelling, redness and/or itching may occur. Experience tells us that these symptoms are temporary.

MICRONEEDLING

After the procedure, the skin will be red and flushed in a similar way to moderate sunburn. You may also experience skin tightness and mild sensitivity to touch on the area being treated. These effects will diminish greatly a few hours following treatment and within the next 24 hours the skin will be completely healed. After 3 days most visible erythema will be absolved.

The results of applied treatment can be different due to differences in the skin quality, thus there is no warranty for the treatment success.

To achieve desired results, it usually takes up to 3 treatments, with 2 weeks gap between each of them. The results last from 4 to 6 months.

Micro needling as well as plasma therapy always leads to the skin injury. Therefore, it is important to carefully and gently nurture your skin after the treatment to allow healing without complications.

Inadequate after care procedure in healing phase of the skin can lead to poor results and Student/ Master-Company, and all persons representing the company, cannot be liable for it.

IN THE NEXT 7 DAYS THE CLIENT IS REQUIRED TO PAY ATTENTION TO THE FOLLOWING:

- Do not wash your face at least 5 hours, optimally 12 hours, after the treatment to ensure optimal effect of PhiFace After Treatment Mask. Within the next 5 days after

the treatment, a special kind of after care products to be applied according to detailed instructions for use. Please do not use any other creams except the ones provided to you in order to prevent possible infections or allergic reactions.

- Do not apply makeup on the facial skin including eye lids for 48 hours after the treatment.
- In the first week after the treatment, do not expose to direct sunlight for 7 days by no means and wear dark sunglasses and hat and avoid public bathing, sunbathing, tanning salon, sauna, beauty treatments and intense training accompanied by sweating (sport activities), contact with the dust (household chores, etc.).
- Three weeks after the treatment do not use botox as well as dermal fillers. This treatments can be safely performed 3 weeks after the treatment with botox or implantation of dermal fillers.

Practitioner/Technician, and all other persons representing the company, cannot be liable in case of improper post-treatment care.
